

B.TECH INTERNSHIP REPORT PRESENTATION

Data-Driven Influencer Marketing and Digital Campaign Management in the EdTech Industry

An Internship undertaken at Elite Creators Hub (ECH)

Presented by: Pragya Dokania

Department of Computer Science and Engineering (AI & ML) | IILM UNIVERSITY

Internship Overview

Organisation

Elite Creators Hub (ECH)

Nature

EdTech Influencer Marketing
Agency

Domain

Influencer Marketing /
Creator & Account
Management

Duration

1st January – 1st September

Mode

Remote

Team

Influencer Marketing /
Creator Management

ECH has worked with 10+ brands, 50+ campaigns, and 200+ creators — including EdTech brands such as ALLEN Career Institute.

Company Profile: Elite Creators Hub

- Influencer marketing agency bridging brands and social media creators (elitecreatorshub.com)
- Strong focus on the EdTech (Education Technology) sector
- Client base includes ALLEN Career Institute, among others
- Core services: creator sourcing, evaluation, negotiation, campaign execution, and payout tracking
- Network of 200+ creators across niches relevant to student and young-adult audiences

Leadership / Founders

Brand Partnerships

**Account & Campaign
Management (Intern's Team)**

Creator Relations

Internship Objectives

1

Understand the influencer marketing agency business model

2

Gain hands-on experience in creator discovery & evaluation

3

Understand the end-to-end campaign lifecycle

4

Develop negotiation & multi-campaign management skills

5

Build experience in structured campaign/creator/financial data management

6

Connect data organisation & analytical thinking to marketing operations

My Role and Responsibilities

**Account
Management**

Creator Discovery

Creator Evaluation

**Commercial
Negotiation**

Creator Locking

**Brand
Coordination**

**Campaign
Execution**

**Deliverable
Tracking**

**Payment
Coordination**

Data Management

Creator Discovery & Selection

1. Researching creators aligned to brand niche (e.g., education/exam-prep for EdTech)
2. Shortlisting based on niche fit, audience profile, engagement rate, and reach
3. Comparing multiple creators before recommending the best fit
4. Prioritising audience relevance over raw follower count for EdTech campaigns

Evaluation Parameters

Niche

Audience

Engagement

Reach

Relevance

Influencer Campaign Workflow

11-stage, end-to-end workflow followed for every EdTech influencer campaign at ECH

**Brand
Requirement**

**Campaign
Planning**

**Creator
Research**

Shortlisting

Negotiation

**Creator
Locking**

**Content
Coordination**

Approval

Publishing

**Performance
Tracking**

Reporting

Campaign Management

- ▶ Handled multiple EdTech campaigns simultaneously, each at a different workflow stage
- ▶ Coordinated between brand stakeholders and creators throughout execution
- ▶ Tracked deliverables, deadlines, and content approvals across campaigns
- ▶ Monitored live links post-publishing to confirm campaign completion

Illustrative Multi-Campaign Snapshot

Data Management & Analytics

- ▶ Google Sheets used as the core tool for campaign, creator, and financial data
- ▶ Tracked creator data, engagement metrics, reach/views, and audience relevance
- ▶ Structured fields enabled consistent creator comparison across campaigns
- ▶ Commercial & payout data tracked alongside campaign status
- ▶ Decisions grounded in structured data rather than intuition alone

Key Data Fields Tracked

Campaign Name	Creator / Handle	Platform	Niche	Engagement Rate
Deliverable	Status	Live Link	Payment Status	

Tools Used

1

Google Sheets

Campaign, creator & commercial data tracking

2

Google Drive

Storing & sharing briefs and reference documents

3

Instagram / YouTube Analytics

Reviewing creator profiles & engagement/reach

4

Email

Formal brand communication

5

WhatsApp / Instagram DM

Day-to-day creator coordination

Campaign Case Study – ALLEN Career Institute

Objective

To generate leads and views

Target Audience

Competitive exam aspirants

Creator Selection

Niche relevance + engagement + reach

Deliverables

YouTube & Instagram videos as per brand requirement

Tracking

Google Sheets – status & live links

Outcome

Maximised visibility

Challenges & Solutions

Challenge

Managing multiple campaigns at once

Solution

Structured, regularly-updated tracker with clear status labels

Challenge

Creator unavailability / delays

Solution

Maintained backup creator pool per campaign

Challenge

Budget vs. commercial expectations

Solution

Compared creators on value (reach/engagement per rupee)

Challenge

Approval delays between brand & creator

Solution

Proactive follow-ups + clear upfront briefs

Skills & Learning Outcomes

Technical/Analytical

Communication

Negotiation

Project Management

Client Management

Data Management

Team Coordination

Technical Relevance & Future Scope

Note: These are forward-looking possibilities — not systems built during this internship.

AI-based creator recommendation

Creator-brand matching models

Campaign performance prediction

Automated reporting

Sentiment analysis

NLP-based content analysis

Marketing analytics (cohort/attribution)

Automated creator discovery & tracking

Conclusion

- ▶ Gained practical exposure to influencer marketing & EdTech campaign execution
- ▶ Developed structured data-handling, negotiation, and coordination skills
- ▶ Connected marketing operations to data organisation & analytical thinking from CSE/AIML
- ▶ Identified realistic future scope for AI/ML in influencer marketing operations

Thank You

Questions & Discussion
